FOR IMMEDIATE RELEASE

Compunetix and CeeLab Establish Video Distribution Agreement

CeeLab to sell Compunetix HD video MCUs as part of their solutions offerings

Monroeville, Pa., May 2, 2011 – The Compunetix, Inc. Video Systems Division (VSD), a global leader in carrier-grade multimodal collaboration solutions including VoIP and high definition video, and CeeLab, a video conferencing specialist vendor, have entered into a distribution agreement for the VSD EVERGREEN™ family of media processor products. CeeLab will include the innovatively engineered Cedar, Cypress, and Sequoia Multipoint Control Units (MCUs) within their portfolio of video solutions offerings. The EVERGREEN systems connect video conference terminals/endpoints, desktop video clients, and mobile devices together for on-demand or scheduled video conference meetings, allowing participants from down the hall or across the globe to communicate face-to-face.

"We believe the Compunetix family of video processors are an advantageous addition to our portfolio. They are backed by the impeccable 43 year history of Compunetix innovation and solid engineering, support, and service," states Mr. Even Zimmer, CEO of CeeLab.

"Our partnership with CeeLab is a strategic opportunity to cover the entire European market through this key relationship," says Mr. James Klueber, Division Manager of the Compunetix Video Systems Division. "The quality of the CeeLab management team includes seasoned professionals within the video industry who have proven their abilities in previous responsibilities."

About Compunetix, Inc.

Compunetix is the global leader in carrier-grade multimodal conferencing and collaboration solutions including VoIP and HD video, all powered by superior hardware design. With nearly one million ports installed in more than 28 countries, the company has the industry's largest worldwide deployment of digital conferencing systems. Dedicated to customer-focused and innovative technology, Compunetix engineers and manufactures all aspects of its conferencing equipment, ensuring its customers that their media processors are the highest quality, most reliable and most flexible solutions on the market. For more information, call Mario Rimini at (412) 373-8110, or visit Compunetix at www.compunetix.com.

FOR IMMEDIATE RELEASE

About CeeLab

CeeLab launched early 2010, and is already amongst the four largest video conferencing providers in the European market. We have around 40 active partners in Europe, and are still building our partner community. After the first year of business, CeeLab is already cash positive, and is set for a strong growth in 2011. We have attracted both exciting global customers, as well as strong technology partners to offer a full product line-up. Our ambition is to become number three worldwide within the next years. The company is headquartered in Oslo, Norway, with regional sales offices in Europe. www.ceelab.com.
