FOR IMMEDIATE RELEASE

Compunetix Video Systems Division Expands Presence into India

Monroeville, Pa., May 4, 2011 – Compunetix, Inc. is pleased to announce that Mr. Harshad J. Contractor has joined the Video Systems Division international team to promote the newly launched EVERGREEN family of products. Mr. Contractor will act in a sales and marketing capacity for Compunetix in India and the SAARC region. He has had a successful career in the video collaboration and engineering industries, working most recently for Aethra S.p.A., VCON Israel, Allied Connectors LTD, and Elrack Systems. Mr. Contractor has a Mechanical Engineering Degree from BMS College of Engineering in Bangalore, with a MBA and post graduate education from the Indian Institute of Management in Ahmedabad.

Mr. Jim Klueber, Video System Division Manager, commented "We are very proud to welcome Mr. Contractor to the Compunetix family. We believe that his industry knowledge and considerable experience will help us focus on the role of video collaboration in the Indian marketplace."

The EVERGREEN family of MCUs marks the reemergence of Compunetix into the videoconferencing collaboration market, and includes Cedar, the Cypress, and the Sequoia models. The products have been architected in anticipation of an explosion of video enabled products from hand-held wireless devices, to desktop systems, room video systems, all the way to executive telepresence suites, and is backed by over 30 years of experience with reliable, scalable, flexible, and secure collaboration.

About Compunetix, Inc.

Compunetix is the global leader in carrier-grade multimodal conferencing and collaboration solutions including VoIP and HD video, all powered by superior hardware design. With nearly one million ports installed in more than 28 countries, the company has the industry's largest worldwide deployment of digital conferencing systems. Dedicated to customer-focused and innovative technology, Compunetix engineers and manufactures all aspects of its conferencing equipment, ensuring its customers that their media processors are the highest quality, most reliable and most flexible solutions on the market.
