

CONTEX Presenter™

Simple, intuitive, and fully integrated web conferencing

It's time to work. It's time to collaborate.

You need a complete solution.

CONTEX Presenter is the comprehensive web-based group collaboration platform from Compunetix that allows your team to meet and share digital content from anywhere, at any time.

With CONTEX Presenter, you can combine the key elements of data, desktop, and application sharing with fully integrated audio conferencing and webcam video to create a single, cohesive solution.

Take a Look at CONTEX Presenter

The simple, sleek, and intuitive CONTEX Presenter interface empowers users, giving them the tools they need to make the most out of their next conference.

The screenshot displays the CONTEX Presenter interface. Callout A points to the Meeting ID Area, B to the Webcam and Audio Setup Area, C to the Chat Window, D to the Active Users section, E to the User Tabs, and F to the Shared Presentation Area. To the right, a vertical list of user roles is shown with corresponding icons: Moderator (person in suit), Participant (person), Web Participant (person with globe), Audio Only Participant (person with headset), and Mobile App Participant (person with laptop).

Fully Integrated Audio Conferencing

CONTEX Presenter pairs seamlessly with the rich audio conferencing capabilities of the CONTEX Summit®.

Supporting both PSTN and VoIP endpoints, CONTEX Presenter delivers superior audio to all participants.

Webcall Audio

Presenter also allows users to join the audio call using their microphone and speakers. The one-click connection is available on all Presenter clients.

Conference Recording

Did someone miss the meeting? With convenient recording options, Presenter enables you to capture the audio, data, or both audio and data portions of the conference for future use.

Webcam Video

Prefer face-to-face collaboration? Just activate your webcam to share your video feed with other members of the conference. With just a click, you can instantly view the feed of any participant.

Web Client

The CONTEX Presenter Web Client provides a convenient Web browser-based interface which requires no installation and allows conferees to view shared content, send chat messages, and manage their audio connections.

Conference Security

Featuring passcode-secured entry and conference lock capabilities, CONTEX Presenter helps to ensure that each meeting is secure from start to finish.

Customization and Branding

Rebrand CONTEX Presenter and make it your own. Choose your color theme, add your own logo and more.

CONTEX Presenter can even be configured to meet the global needs of your clientele, offering up to ten languages with full Unicode support.

Voting/Q&A

Wondering what the participants are thinking?

Find out in an instant with Presenter's dynamic Voting and Question & Answer (Q&A) capabilities. Just a click can get the audience into the action.

What About Mobility?

We've got you covered. Anywhere. Anytime. Any device.

Opening the door to the mobile market, the versatile CONTEX Presenter Web Client can be accessed from any flash-enabled mobile browser. Apple iOS participants can also download and enjoy the CONTEX Presenter App from the iTunes® App Store™ on their iPad®.
