

Olympus HD Secure Audio Client

One-Touch High Definition Conferencing

The Olympus HD Secure Audio Client app for iPhone® and Android™ provides high definition (HD) conferencing access to anyone, from anywhere, at anytime. The streamlined app seamlessly integrates with the Summit Olympus™ media processor to deliver one-touch HD VoIP connectivity from your smartphone.

Blending Mobility & Powerful Connectivity

Olympus HD expertly unites the convenience and accessibility of mobile communications with the robust functionality of Compunetix collaboration technologies.

- **One-Touch Start:** The Olympus HD app allows users to start hosting their next meeting with a single touch of a button. There's no need to re-enter information or remember dial-in numbers or passcodes.
- **High Definition Voice:** From participant voices and audio prompts to conference recording and playback, every sound is crisper and clearer with HD voice.
- **Convenient Conference Controls:** Users can effortlessly mute/unmute their line, signal the operator, initiate a roll call, record the conference, and more through the user-friendly controls.
- **Secure Voice Encryption:** Olympus HD encrypted voice conferencing and secure SIP signaling provide confidentiality, message integrity, and authentication via key distribution and certification.
- **Instantly Downloadable:** The Olympus HD app is available for instant download from the Apple App Store or Google Play Store.
- **WebEx® Hybrid Audio Support:** The Olympus HD app can serve as a hybrid audio client when joining Cisco® WebEx® Meetings.

Make the Connection!

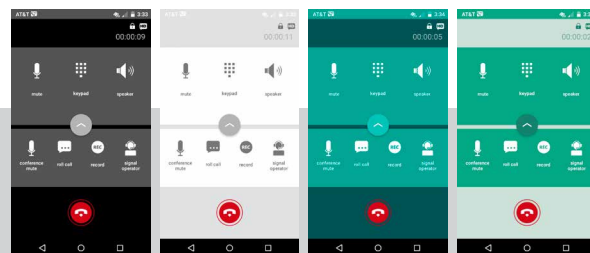

Olympus HD enables users to finally experience the unmatched quality of high definition audio on their mobile devices.

- **Widespread HD Availability:** You no longer need to be tethered by a SIP desk phone or speakerphone to experience the rich and resonant sound of HD voice conferencing. With the Olympus HD app, HD audio conferencing is available anywhere your smartphone can go.
- **Easily Adoptable:** The user-friendly interface features intuitive controls for both iPhone and Android devices. It's incredibly easy to learn.
- **Effortless Integration:** The Olympus HD app is primed to integrate seamlessly with Summit Olympus systems.
- **Device Independence:** The Olympus HD audio client is an over-the-top (OTT) application usable across a wide variety of modern smartphones, tablets, and mobile devices.

Becoming an Olympus HD Provider

To become an Olympus HD supported service provider, you only need to give us a few details about your services and system. We can then create a unique Provider Code for your clients to effortlessly access your HD services.

Are you ready to become an Olympus HD provider?

Choose the Olympus HD color theme that best aligns with your organization, or we can make you a Custom Theme. Just ask!
