VideoCENTRIX™ will change the way you look at video conferencing

- *Unlimited usage at a fixed monthly price*
- *No up-front investment*
- *No system installation, warranty, or maintenance costs*
- *Immediate start-up*

VideoCENTRIX

Experience all the advantages of owning your own videoconferencing bridge as well as the flexibility and convenience of working with a service provider. With VideoCENTRIX™ you can enjoy:

Cost Effective Conferencing

Unlimited Usage — Unlimited conferencing at a fixed monthly cost. There is no “per hour” bridging charge. Your available ports may be used endlessly, without incurring excessive bridging costs.

No Up-front Investment — Save your capital equipment \$\$ for other investments. No third-party lease or credit line is required. All the benefits of bridge ownership are available to you without the associated cost.

Cost Competitive — Renting bridging capacity is cost competitive relative to a bridge purchase AND offers significant cost savings when compared to a traditional service provider solution.

Eliminate the Cost of Ownership — Pay NO warranty or maintenance charges.

Eliminate Line Access Charges — Network resources are supplied by Compunetix to minimize costs and maximize value.

Reduce Overhead — Eliminate the cost of having around-the-clock bridging technology support personnel, maintaining spares inventory, and providing co-location space.

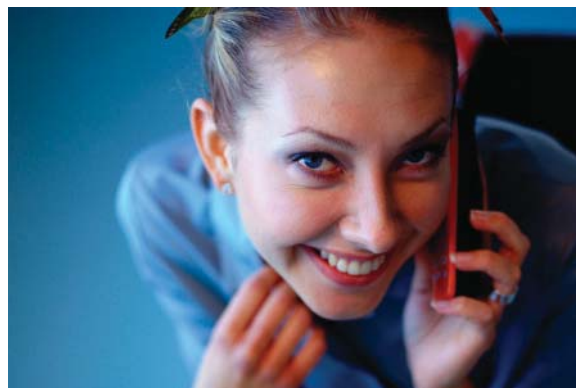

Peace of Mind

Guaranteed Availability of Resources — A flexible rental arrangement provides conferencing resources that are available on-demand 24x7.

Overflow Access — Never run out of system resources. Rely on your Compunetix partner to provide additional system capacity when needed.

Conference SOS™ — Star zero (*0) signaling allows end users to signal for assistance. The client may choose to provide support through a Compunetix partner, a designated service provider, or an internal help desk.

Access the Latest Enhancements and Updates — Eliminate technology obsolescence and equipment trade-in issues.
