

CONTEXWeb™ Maintenance Training

This half day training course is designed for people who will maintain CONTEXWeb.

Trainees are introduced to Compunetix and the installed system. Trainees learn about the function of the Access Server as well as the Application Program Interface (API) used for CONTEXWeb.

They are also shown the CONTEXWeb turnkey application and are shown configuration and maintenance procedures.

Topics for the class include:

- Introduction and Overview of the CONTEXWeb System
- Access Server
- Configuration
- CONTEXWeb Turnkey
- Troubleshooting

For more information, please call **(412) 373-8110** or contact **csdtraining@compunetix.com**

TRAINING COURSE CONDITIONS

The course registration deadline for courses being held at the Compunetix training facility is fifteen business days in advance of the scheduled start date of the training course.

Compunetix reserves the right to reschedule any training course for which the course registration, at the time of the registration deadline, is less than the course minimum of two students for Maintenance Training courses and four students for the operator training courses. In such an event, the customer will be notified the course has been canceled at least three business days in advance of the scheduled start date of the training course. Should a course be canceled due to lack of participation, the customer will have the option of canceling the course registration purchase order or applying it to the next scheduled training course.

If the customer cancels any training course for which they were registered within seven business days of the scheduled start date of the training course, Compunetix reserves the right to charge the customer 30% of the fee for the course.
