

## E-News

### Dynamic & Secure ConferenceManager™

The [ConferenceManager](#) (CM) has been a trusted staple in enterprise and federal spaces for over a decade. Unlike most audio and web platforms on the market, ConferenceManager offers customized functionalities to meet the unique needs of any enterprise workflow. From executive and team meetings to emergency communications, ConferenceManager enables seamless, secure, and scalable communications. CM also offers flexible deployment options, including hosted, private hosted, and on-premises.

#### Certifications

The ConferenceManager has been certified by the Defense Information Systems Agency (DISA) Joint Interoperability Test Command (JITC) Certification testing and is listed on the Department of Defense (DoD) Unified Capabilities Approved Products Listing (APL) Accreditation. This solution is also HIPAA (Health Insurance Portability and Accountability Act) compliant according to the national standards for the protection of health information, which was established by the U.S Department of Health & Human Services and the HIPAA Privacy Rule.

#### Where are we focused?

- **Federal and SLED (State and Local Government and Education)** - Courts, remote hearings, emergency preparedness, unified crisis response, highly secure solutions, and high-touch operations ([Case Study](#))
- **Finance** - Trading applications and executive conferencing with administrative support

- **Energy and Utilities** - Emergency preparedness and custom plant applications
  - **Transportation** - Crash applications and logistical conferencing
  - **Healthcare** - Transfer center applications
- 

## ConnectNow Benefits and Updates

[ConnectNow](#) is a compelling new productivity platform that enables consistent and powerful team collaboration from any modern browser. Unlike most collaboration tools on the market, ConnectNow can be customized and personalized to meet the unique needs and requirements of your organization. This robust platform offers integrated audio, web, and WebRTC video in a single solution, enabling seamless communication and shared collaboration. With one click you can share your ideas, data, desktop, and more. Some ConnectNow benefits include:

- Real-time operator support
- Brandable & customizable
- Workflow enhancements
- Encrypted recordings
- Conference locking
- User portals

Additional features have been added to allow for more personalized branding of the experience, and new sharing visibility for the meeting presenter. What's New in This Version?

- ConnectNow Portal Branding
- Configurable Default Country Flag Display
- New Presenter Share Functionality

Moving forward, ConnectNow represents the entryway to a new set of voice services in the areas of Webinar and Event Management and Unified Crisis Response. These new capabilities will be introduced throughout 2022 and accessible through the ConnectNow portal to licensed and provisioned users. These solutions will package the powerful voice and video capabilities of ConnectNow into exciting new services that can be installed on-premises or hosted.
