Wishing All A Festive Holiday Season!

Compunetix sends best wishes for a festive holiday season and our sincere thanks for your loyalty and goodwill throughout this past year.

As always, we look forward to growing our relationship with you and anticipate working with you in 2023!

Compunetix Mourns Loss of Visionary Founder

Compunetix was saddened to announce the death on Wednesday, September 28, of Giorgio Coraluppi, CEO and president of Chorus Call, Inc., Compunetix, Inc., and Compunetics, Inc., the electronic manufacturing, product and services companies he founded starting in 1968. Dr. Coraluppi was a brilliant engineer, a mathematician, and an inventor who successfully started and managed three corporations. He was recently inducted into the NASA Space Technology Hall of Fame for inventing the modern conference call, and committed to funding a headship at Carnegie Mellon University (CMU) in Electrical and Computer Engineering to provide support for their strategic initiatives and priorities.

"On behalf of Chorus Call, I would like to express our appreciation for the immeasurable contributions Giorgio Coraluppi has made to our company, the communities in which we serve, and countless industry organizations he helped found," commented Michael Hockenberry, Vice President of Chorus Call. "In his 54 years at the helm of Compunetix, Chorus Call, and Compunetics, Dr. C built a diversified organization that provides jobs to over 600 employees in Pennsylvania and numerous other countries around the globe. He was a man of honor and integrity, and his Chorus Call/Compunetix/Compunetics family will miss him greatly. Our thoughts and prayers are with his wife, family, and his many friends."

Giorgio Coraluppi and the Board had taken care over the years to ensure that the Chorus Call companies would be prepared to continue in his absence.

Introduction of the ConferenceManager™5v

The new ConferenceManager5v (CM5v) is a virtually deployed, high definition, high capacity, audio and web platform for large enterprise and industry specific workflows. This secure and reliable solution, built for effective collaboration, provides seamless access for administrators, users, and guests for day-to-day operations, executive meetings, all-hands calls, and more. Offering real-time call management, private conference rooms, and encrypted recording for future playback, CM5v is a powerful workflow-focused solution delivered across vertical segments such as healthcare, emergency management, remote hearings, transportation, financial organizations, and more.

- Improved Capacity Limit (512 per conference)
- Seamless Integration with Existing ConferenceManager Systems
- Support for VMware Installations
- Option for WebRTC Audio Connections
- HD Audio

Compunetix is a Premier Provider of Remote Appraisal Solutions

Property appraisal hearings give owners the opportunity to present evidence to challenge an official assessment to encourage a fair and just distribution of the tax burden. In many states, county tax assessment processes are complex and the transition from traditional to remote hearings was challenging. Compunetix offers an easy and efficient means of conducting remote property appraisal hearings for counties across the country. To replicate brick and mortar hearing rooms, our customized solution enables property owners, property agents, and others to easily join and hold hearings remotely. Moreover, Compunetix can customize and tailor solutions to meet the unique requirements of different organizations, which is what we did for the [Travis Central Appraisal District \(TCAD\)](#) in Texas. Key elements that make our solution easily adoptable:

- Cloud deployment option minimizes budget constraints and maximizes deployment speed
- Recording and automatic recording archival is available, saving an incredible amount of time and energy
- Recordings are automatically labeled by individual tax ID numbers, rather than random conference IDs
- Browser-based GUI enables seamless oversight and support of all active and scheduled hearings by designated staff
- [Compunetix ConferenceManager](#) solution is easily customized to meet various workflow needs and requirements

Please visit Compunetix at the [Texas Association of Appraisal Districts \(TAAD\) 42nd Annual Conference & Trade Show](#) at the Renaissance Dallas Hotel in Dallas, Texas, February 19-22, 2023!
